

DUNK DRIVERS

Dunk drivers paid \$275 in fines during the past week in City Court, in addition to losing operators' licenses for 30 days, according to court records. Pleading guilty before City Judge John Shidder, were: Marshall King, 400 Strand, Redondo Beach, fined \$100; Lester A. Romine, 2211 Maricopa ave., \$100 and Alfred Lee Corn, 22327 S. Figueroa st., \$75.

AIR AND RAIL SALARIES

A comparative study of salaries paid to five broad functional employ groups has revealed that during 1944 the domestic airlines paid higher average monthly salaries than did the Class I railroads. Average monthly salary for domestic airlines was \$208 against \$205 for railroads. Rail passenger engineers averaged \$383 a month against air pilots at \$659.

Tom F. McGuire

Candidate for City Treasurer Has Long Training in Financial and Administrative Life of City

Tom F. McGuire, candidate for City Treasurer at the April 9 municipal election, was elected to the Torrance City Council in 1936 and was given the chairmanship of the City's Finance Committee.

During the succeeding eight years the City was completely removed from debt, all bond issues having been cleared. At the present time, the only outstanding indebtedness is the Torrance Municipal Water District and the Municipal Buildings bonds.

Torrance is in reconvension at the present time, and on the verge of a business boom unequalled in the South and its history. This means refinancing in municipal affairs.

Select a man who understands the City's finances and able to advise with the City Council to take advantage of these many opportunities.

TOM F. MCGUIRE
For City Treasurer

TORRANCE MUNICIPAL ELECTION, APRIL 9

R. J. Deininger In Bankers' Public Relations Group

R. J. Deininger, vice-president of the Torrance National Bank, has been appointed a member of the Public Relations Committee of the Independent Bankers Association of Southern California, an organization of 65 community banks in this area, it was announced by H. G. Markworth, President of the Association.

Independent banks in Southern California established an outstanding record of growth during the past year, Mr. Deininger stated. "According to a survey prepared by the Independent Bankers Association of Southern California, resources in Southern California increased \$183,335,041 in 1945. Combined resources of these banks stood at \$1,169,725,833, as of Dec. 31, 1945, compared with \$981,390,792 12 months previous, a gain of over 19 per cent for the period."

New Flour Adds Natural Nutrients To Bread, Cake

The new 80 per cent flour will be of the same nutrient-packed quality sold to American householders more than 80 years ago, with all of the added refinements that modern consumers have come to expect of the "staff of life," one of the nation's leading authorities on baking declared here today.

"In view of the fact that bread and grains constitute more than a quarter of our caloric diet," said H. W. Gilb, director of the Great Atlantic & Pacific Tea Company's national bakery division. "It is gratifying to report that our tests of the new flour show an actual gain in the natural enrichment of bread."

Gilb explained that before the recent emergency order millers, in extracting 68 to 72 per cent of the wheat berry, removed almost all of its strength in niacin, thiamin, riboflavin and iron and a portion of its protein, phosphorus and calcium. The 80 per cent extraction flour, he said, contains a greater natural supply of these nutrients which, with added enrichment as ordered by the government during the war, provides peak nourishment.

The new flour will be used by A & P's 37 bakeries as soon as existing inventories of pre-conversion flour are exhausted, Gilb said. Thorough tests conducted in the company's bakeries show that bread produced from this flour will differ little in taste and appearance from the usual white bread, while cakes and pastries distinguished by very light color will likewise remain unaffected, he added.

What Torrance Is Reading Listed By Librarian Here

The Torrance branch of the Los Angeles County Library is offering many new books to its increased readers here, according to Mrs. Dorothy Jamieson, librarian. Mrs. Jamieson revealed that library visits by elementary students, which were greatly curtailed during the war, has been resumed.

Among the first five books in fiction and non-fiction which were listed by the librarian as top choice of Torrance readers were of the following:

- Fiction: "Leave Her to Heaven," "Strange Woman," "The Black Rose," "So Well Remembered," "The Robe."
- Non-fiction: "Up Front with Mauldin," "Brave Men," "Mission to Moscow," "Burma Surgeon," "Tarawa."

Wireworm Control Seen In Use Of New Soil Fumigants

Two new soil fumigants known by the initials D3 and EDB have proved effective for control of wireworm in garden, greenhouse, and field soils. A supply of leaflets describing soil fumigation with these materials has just been received by the Agricultural Extension Service, says C. V. Castle, Los Angeles county farm advisor.

Methods of fumigation, costs per acre, together with a description of the wireworm and its damage, of the materials, and of applicators are included. The circular is available without cost.

Men's Night At Central Church

This is Men's Night at Central Evangelical Community Church. It will get under way at 8:30 when the men congregate in the Social Hall of the church to partake of a dinner prepared by certain of their number. It is claimed that there will be no feminine hands engaged in the preparation of said dinner at any point. But there are no misgivings on that score. It appears that there is a very efficient chef among the men in the person of Virgil Deems. He and a select committee are in charge of the meal.

Important as it is, eating will not be the only feature of the evening, however. With the inner man duly strengthened, it is expected that the men will enter wholeheartedly into a program built with the idea of promoting good-fellowship and a deeper and more intelligent interest in the men's part of the work of the church. Rev. H. Wesley Roloff, minister of the church, has given assurance that the evening's activities will be most challenging to those who attend. It is expected that this will be but the first of a number of periodic get-togethers. Bill Fackiner, baritone, will present a group of musical selections. Rev. Paul E. Miller, ministerial associate, will speak.

AIR SHIPPER RESEARCH

Due to continually rising shipments of air cargo bringing many new commodities to the airlines, the Air Transport Association of America is setting up a Shipper Research Division. The new division dealing with the safe transportation of hazardous commodities by air. It will also direct laboratory experiments in the testing and analysis of packing specifications.

Memorial Rites Conducted For Lt. G. G. Walker

A memorial service was held Sunday morning March 24, by Rev. C. J. Crabaugh, pastor of WALTERIA GOSPEL TABERNACLE, 1907 Newton st. in WALTERIA, for Lt. George Glenn Walker.

Lt. Walker, of the Merchant Marines, while in the course of his duties aboard the SS James Hoban of Baltimore, Maryland, was showing a new man around the ship, when he slipped and fell from the third deck of the ship down through the hatch.

The accident occurred on Jan. 12, 1946, and he died 12 days later from internal injuries sustained in the fall. He leaves his widow, Mrs. Mary Ann Walker, WALTERIA; his mother, Mrs. Blanche Walker, Borgia, No. Carolina; sister, Mrs. Owen D. Rivenbark, Borgia, No. Carolina; stepson, Hans Mayr, of New Orleans, La.

DOOR SLAMMING

KANSAS PICNIC

It isn't necessary to slam the door in order to close, contrary to the common belief. A little oil or graphite when applied to door in order to close it, contrary to most skeptical of car owners.

The Annual Spring Picnic Reunion of former Kansans residing or visiting in Southern California will be held at Sycamore Grove Park in Los Angeles, all day Sunday, April 7, 1946.

MAYOR'S PROCLAMATION

WHEREAS the men and women of the Torrance area who loyally served their country in the armed services have practically returned to this community, and WHEREAS each Veteran of World War II deserves the special consideration of this community in giving him or her the rightful opportunity to work at the task of his or her choice, and for which they are best fitted, and

WHEREAS it is a proven fact that there are now thousands more applicants for job-openings than there are jobs listed as available with the United States Employment Service and other local hiring agencies, and

WHEREAS the postwar problems of production and employment require that the leaders in labor, management and government work together in making provision for the gainful occupation of all returning Veterans in the peace-time period,

NOW THEREFORE, I, WILLIAM H. TOLSON, Mayor of the City of Torrance, do hereby proclaim the week of April 8th to April 14th, both dates inclusive, to start an indefinite program to develop new job-opportunities for the Veterans of World War II who are returning to their homes in this community and to aid all those Veteran newcomers who have come to this area to reside,

AND I do call upon the citizens of this city—including the employers, labor unions, the civic organizations and their members, to make themselves individually responsible for offering every possible assistance to returning Veterans in their search for suitable employment,

AND to take immediate steps in listing all available job-openings in this community with the United States Employment Service, so that the men and women who have so gallantly served their country in war will have full and equal opportunity for work in time of peace.

(Signed) WILLIAM H. TOLSON, Mayor, City of Torrance.

Dated this 28th day of March, the year 1946.

THEY DESERVE

—what they fought to save all of us . . . peace and prosperity for all America . . . to have that they must have a job . . . jobs to earn the right to live the American Way of Life!

If you need a man—or Several Men—and have jobs to offer . . . then be sure and consider the Veteran . . . Call the United States Employment Service—TORRANCE 417—and ask to have a Veteran Sent to Work!

It's been a long, long time since he opened that envelope bearing his "Greetings," but he's home again! He's saying, "I was lucky . . ."—for he knows others . . . others that won't be home again. He's been a lot of places, seen a lot of things, thought a lot of thoughts . . . about you . . . about him. And now it's your turn . . . your turn to start thinking about him . . . about you. AND A HANDSHAKE ISN'T ENOUGH!

During that long, long time he went where he was ordered, bore the sights he saw, did the job he was told to do, complained only to the extent that such condition had to exist. He fought such a fight because he was thinking of you and him . . . and yours! . . . and his, and towards the end that such conditions would no longer exist. His thoughts concerned you and him and how you would see, that THIS time, he wouldn't have to sell apples on the corner. He's home again and now you can do your part to let him and his sisters-in-arms know they're "lucky."
